

FAQ Sheet for In the Net

Cast Size

There will be 3 actors touring with the production.

All of the company members will report to reception upon arrival and sign in. All will have photo ID on them if needed. All of our actors will be DBS checked in line with our safeguarding policy.

Arrival Time

The cast will aim to arrive 1 hour prior to the performance time so that they can pop up the set and set up the equipment. Please ensure that the space is available and clear of people during the set-up period as the cast will need to set out wires and extension leads and make sure that it is all safe.

Space

The productions are all very flexible and can be adapted to be performed in most spaces. Please bear in mind though that there are three actors, set and sound equipment to set out. Also bear in mind that the actors are not using microphones, so the room should be a suitable size for them to be heard at the back. Ideally we'd like a performance space no less than 4 metres x 4 metres

Layout

The layout for the play is End On (like a normal theatre - audience at one end, performance at the other). Please ensure that there are enough chairs in the room. Our cast are happy to rejig them into the appropriate format once they have set the equipment up.

Audience Size

We have performed the plays to 6 young people in a secure unit and over 500 young people in a school theatre. Ideally an audience size of no more than 200 is most effective – although we will always endeavour do whatever you need. Please let us know if you have any concerns about the size of the space.

Show Length

Each performance lasts 50 minutes.

Introduction

Once all of the audience are in it helps if somebody can settle them down and let the actors know that they're good to start that would be great.

Needs

All we need is a place to perform and an electricity supply. A handy place to park near the performance venue is always good for unloading, and a coffee or tea usually goes down well with the cast. Directions to the staff toilets would be good too.
