

Resource Sheet 1A: Consent Scenarios

Look at the scenarios below and decide if the person in the scenario:

1. is not wanting to give consent
2. is wanting to gain consent
3. has given consent but has now changed their mind and wishes to withdraw consent

Within your group, decide the number for their situation and put it in the box. Then discuss what you think should happen in each scenario. What can the young person say or do?
