

Resource Sheet 1B: Consent Scenarios

Look at the scenarios below and decide if the person in the scenario:

1. is not wanting to give consent
2. is wanting to gain consent
3. has given consent but has now changed their mind and wishes to withdraw consent

With your partner, decide the number for their situation and put it in the box. Then discuss what you think should happen in each scenario. What can the young person say or do?

<p>Rafael asks his friend every day if he can borrow their favourite hoody to wear. His friend has said no but Rafael keeps asking to try and change their mind.</p>	<p>Sophia had said she would meet her friends at the park later. She now realises it will almost be dark by then, so doesn't want to go.</p>	<p>Aisha's friend's dad always wants to give her a hug when she visits. She doesn't want one.</p>
